

Hasanain K. Atiyah

Lecture at Faculty of Engineering, also at college of Education for Pure science

- **Contact**

07730383707

Hasanainatiyah@mu.edu.iq

- **Biography**

He was appointed Lecturer in Chemical Engineering (2008), he finished his PhD study from University of Nottingham. His research area mainly focuses on laser technologies and machining processes.

- **Specific current research**

Fibre laser cutting and drilling

Meteorology science

Laser induced phase transformations

- **Selected Publications**

1- Application of Ray Tracing for Interpreting Beam Prints from the Fibre laser Cutting of Stainless Steel.

2- Fibre laser cutting: The use of carbon-filled acrylic as a qualitative and quantitative analytic tool.
